

Powering Wine in a Can Globally®

Vinsafe® Global Revolution in Wine Packaging

The globally patented Vinsafe wine packaging system is the only recognised wine in a can technology in the world proven to successfully produce premium, award winning wines in a can.

- Driving the growth of the global wine in a can product category.
- Elevating the aluminium can as the packaging of choice for a new generation of wine consumer.
- Over 120 medals medals to date, including:
 - Platinum
 - Seven Gold
 - Two 'Best in Class'
 - Nomination for 'Best at Show'

These accolades clearly prove Vinsafe's ability to produce wine in a can with quality, integrity, stability, longevity and reliability!

A passion for wine *connects* ®
